Education

RWTH AACHEN UNIVERSITY

M.SC. IN COMPUTER SCIENCE

 Sep 2014  Aachen, DE

Dropped out to found room.me

AALTO UNIVERSITY

M.SC. IN COMPUTER SCIENCE

 Jul 2013  Espo, FI

1 year Erasmus exchange

RWTH AACHEN UNIVERSITY

B.SC. IN COMPUTER SCIENCE

 Sep 2012  Aachen, DE

Work-life Balance

I value time away from work and have spend significant amounts of time:

- With my family and friends
- Picking up mountain biking
- Learning how to ski
- Climbing mountains
- Sailing for months
- On a bike or backpacking tour

Experience

SOFTWARE SUPPLY CHAIN SECURITY MANAGER

SHOPIFY

 Nov 2019 - Dec 2020

 Canmore, Canada

Remotely formed and lead the Software Supply Chain Security team, which worked on securing Shopify's kubernetes clusters. With my support, the team grew from 4 to 6 full-time software engineers and had up to 2 interns. Handing over my technical work, I focused on hiring new team members, mentoring and promoting my team members, as well as organizing our work within the team and the larger organization.

SENIOR INFRASTRUCTURE SECURITY ENGINEER

SHOPIFY, SECURITY TEAM

 Jul 2017 - Nov 2019

 Canmore, Canada

Worked on Kubernetes security and developed **kubeaudit**, a tool to audit Kubernetes clusters for various security concerns.

Started **Voucher**, the container image security attesting tool for Kubernetes's binary authorization toolchain, which allows one to set a required security baseline. The tool was adopted by and **donated** to the Grafeas organisation.
Go, Kubernetes

PRODUCTION ENGINEER

SHOPIFY, NETWORKING TEAM

 Jul 2016 - Jun 2017

 Ottawa, Canada

Developed Shopify's **bot prevention** and **DDoS protection system**; all network traffic gets analyzed to create firewall rules to block unwanted traffic.
Go, Lua, Kafka, NGINX

FOUNDER & CPO

ROOM.ME

 Jul 2014 - Dec 2015

 Berlin, Germany

Co-founded **room.me** to help people find the perfect roommate by using personality matching. Involved in every step of developing the company, from designing and implementing the matching algorithm and the backend, helping to secure a 1M Euro seed round, to managing a team of 25 people.

Ruby on Rails, Postgres, AngularJS

Projects

GOOGLE SUMMER OF CODE

HONEYNET PROJECT

 Jun 2013 - Sep 2013

SchemDBG, a backend-agnostic debugger frontend that focuses on debugging binaries without having access to the source code.

Ruby

CTFS

 2008 - 2013

Played and organized different Capture The Flag competitions. For the rwthCTF, I contributed **Codewar**. My best tournament placement was 6th place at DEF CON finals in Las Vegas with the OldEurOpe team.

Ruby

HIVE

 Sep 2022 - today

Currently, working on an implementation of **Hive**, a boardless boardgame.

Rust
